Gold Medal
Roses

E. G. Hill

THE largest red forcing Rose of true Hybrid Tea character yet produced. The flower is dazzling scarlet shading to deeper pure red as it develops. It is a great producer and an unusually good keeper.

GOLD MEDAL
ROSES

Joanna Hill

THIS Rose is clear yellow deepening to richer tones in the center. It develops strong stems without pinching. It produced more blooms to the square foot than any other variety in our greenhouses the past season.

E. G. HILL

A ROSE MESSAGE *for 1929*

Richmond, Indiana

To Our Friends in the Trade:

Just a few words between ourselves as we enter the New Year. It will pay every one of us to take a dollar-and-cents account of the varieties of Roses that we have grown this past year.

Which variety fell short of a profitable average and why?

Was it the color? Were the stems weak? Was the foliage indifferent? Or was it lack of quantity production? Has your market grown tired of the old favorites? Has your demand been for something different? Of course, if new, it must be better. Which leads—Rapture or Butterfly; Premier or Matchless? What will Premier Supreme do to her mother?

Keep tab on the novelties of this year: Talisman, Joanna Hill, E. G. Hill and the two Foreigners. Your rose buyers demand novelty with quality. Rose growers must supply what the public demands.

Take a pointer. These 1929 Novelties will be Trade Winners, both wholesale and retail. Do as hundreds have done this year. Come and see them growing.

Wishing you a very prosperous and happy year, we are

Sincerely yours,

THE HILL FLORAL PRODUCTS CO.

THE HILL FLORAL PRODUCTS CO.

RICHMOND, INDIANA

Richmond is very much on the map, in every way, especially *in the way of Roses!* Cement roads for your auto, and your choice of steam roads, interurbans, or "the bus"; they all lead to Richmond.

So come and see the roses growing.

Visitors always welcome.

THE ADMINISTRATION BUILDING

AMERICAN GOLD MEDAL ROSES

for 1929

E. G. Hill, Joanna Hill, Talisman

E. G. Hill (E. G. HILL CO.)

In offering this immense Rose to the trade, we claim that it is the largest red forcing variety of true Hybrid Tea character yet produced. It is a cross between two selected red seedlings. "E. G. Hill" has been given the severest tests in our forcing houses since it was seeded four years ago.

The flower is dazzling scarlet, shading to a deeper pure red as it develops. It produces long stems naturally and the foliage develops freely and is of fine color. A great producer and an unusually good keeper, as was shown when it was up for exhibition. The bud is unsurpassed in beauty—except by the open flower, which is a wonder!

Joanna Hill (JOS. H. HILL CO.)

This yellow Rose made its debut as a cut-flower in Pittsburgh, Cleveland, Cincinnati, and Chicago last winter and was pronounced, by wholesalers and retailers as well, the best yellow Rose of its type yet introduced.

It is a seedling of Amelia Gude and Mme. Butterfly. The blooms are clear yellow, deepening at the center, and hold their color perfectly under artificial light.

It produces strong stems without pinching and can be grown at low cost and sold at a lower price than Souv. de Claudio Pernet.

The production exceeded that of any other variety grown in our greenhouses the past season. Cut flower buyers have been most profuse in expressing their delight with this Rose.

Talisman

A seedling of Ophelia and Souv. de Claudio Pernet originated by The Montgomery Company, at Hadley, Mass. It is the highest colored Rose yet produced for indoor use: rich shadings and blendings of pure scarlet and gold with foliage of vivid light green: straight, stiff stems and cup-shaped buds make it a marvel; it is very free in bloom; stands up like grenadiers in the bench. NOTHING LIKE IT!

We are assisting in disseminating this fine novelty. Come and see it growing.

TWO FOREIGN GOLD MEDAL ROSES

Dame Edith Helen

(ALEX. DICKSON)

A very perfect pure, bright pink Rose; the size is immense, exquisite in form; the bud never "sticks," always opens perfectly notwithstanding the quantity of petals; a strong upright grower. A magnificent Summer bloomer.

*Dame Edith Helen*

Lady Margaret Stewart

(ALEX. DICKSON)

A gorgeous Irish Rose, of pure, sunflower yellow, with shadings sienna and soft rose; the bud is nicely pointed opening into a perfect rose-form. Foliage glossy. A good clean grower.

Price of these two roses:

\$ 45.00 per 100
400.00 per 1000
375.00 per 1000
in 5000 lots

Less than 100 plants 50 cts. each.

There are those who see only the surface of things—they never see the work, the patience, the endurance, the courage, and the tenacity that make success possible in any field.

You cannot quarrel when there is no one to quarrel with, for a one-sided argument soon loses its flavor. Once your wordy fury is spent, you cannot keep up the fire of words, if no one contributes any fuel to the flame.

STANDARD VARIETIES

Briarcliff

A splendid sport from *Columbia* introduced in 1926. A credit to its parent; used in large quantity. A great improvement in the Columbia class.

Commonwealth

The very best commercial summer rose; blooms of large size on strong stems, freely produced.

“Double” White Killarney

Still the best forcing white; was named “Double White” by the introducer as the sport showed more petals than the original; our best white till a better arrives.

Francis Scott Key

Type of *American Beauty* in its heavy growth and in the fine rounded build of the flower which is a deep, reddish crimson; a queenly variety. Gorgeous in Summer.

Matchless

Sport from Premier; absolutely distinct; a deep rosy cerise color, deepening to pure red in cool weather; has every necessary good quality; it has won its place at the top among forceers, and it is fully as large or larger than Premier, on long stems.

Mme. Butterfly

There is nothing more beautiful in the entire forcing family; daintiness combined with fragrance, and colors unapproached give it a place all its own.

Mrs. F. R. Pierson

A magnificent sport of Premier! An intense crimson scarlet; in nearly all other points it is very much like the parent.

Premier

Every florist knows the history of this rose, its rise in popularity, and its record as a money maker; it has not been without its faults; but already it has produced two fine sports, and now we have a third, which promises to be a most valuable addition to the forcing list.

Premier Supreme (ZIEGER & SONS)

A deep rose-pink, with a large bloom, opening from a long, pointed bud, into a full-blown rose, of splendid form. It is not so subject to mildew as the parent; the foliage is handsome; a bunch of it is a beautiful sight.

We predict that nearly every florist when ready to throw out his three or four year old *Premiers* will re-plant with *Premier Supreme*.

Rose Hill

Will perpetuate the memory and bring even greater pleasure and prosperity to the American trade than did its valuable parent, COLUMBIA. It has more petals than Briarcliff; it is firmer in texture, making it a better shipper; true pink in color without shadings; stem stiff, with few thorns; very profuse in production; all these good qualities make it an ideal FORCING ROSE.

Rapture

A second generation sport of Ophelia through Butterfly; intensely bright in its vivid coloring of *apricot, coral, rose and gold*; it has more petals than its parent, and produces more blooms per plant than *Butterfly*; with this mingling of all these tints the color combination is superb; a strong heavy grower.

Souv. Claudius Pernet

"Pernet" the golden, has no competitor in its class of yellow roses; since growers are learning its requirements it is being produced in large quantity, and the public buys it eagerly not only for its beauty but for its marvelous keeping qualities. The foliage is very handsome.

Templar

A lovely, bright red, with good foliage; fine producer. A clean responsive grower; good stems, and handsome habit.

Wm. Kordes

Makes a strong bid for a high place among recent introductions; capucine red on a yellow ground; flower, enormous; heavy in growth; extremely showy; free in bloom.

Some philosopher of business recently enunciated three general rules for making money:

1. *Do something before others do it.*
2. *Do something others do not like to do.*
3. *Do something better than others do it.*

CARNATIONS

SEASON of 1928-1929

Strong, Clean, Rooted Cuttings—First Quality
The Kinds that Keep when Kut!

Our Mr. Fred H. Lemon has made an enviable reputation for his Department of Carnations.

No varieties of weak growth or thin texture allowed on the place.

Blooms that STAY AWAKE when marketed always meet a warm reception.

A carnation with a stiff stem, heavy texture in the petal, a clear color, and a spicy fragrance, does not need to blush even in the presence of the Rose, Queen of Flowers.

Early crops, and bountiful cuts, before the gluts come on, bring their reward.

PICK BEST VARIETIES. Then TREAT 'em right!

PROFITABLE AND PLEASING VARIETIES

Arctic (WM. SIMS)

Flower large, on a stiff stem, fine white color, very free, easy to do.

Betty Lou

Has the brilliant pink color of *Mrs. Ward*, with longer stem, better habit, large full flowers, and is a fine keeper.

It carries through on long shipments in perfect condition, on account of its unusual texture. Very popular; the storemen like it immensely.

Early Rose

A glistening pink from the Dorner strain. The flowers are full and well formed. Stems are of medium length and hold the bloom up nicely. Especially desirable for its lovely color.

Eldora

Free flowering, white ground, pink variegated. Spicy odor. Flower is perfectly formed and is borne on strong stem. An excellent sort.

Hilda Brenkert

“Hilda” is the carnation which has been shipped from Denver to all the leading shows with so much success. It is in the Laddie class as to size. The color is pink with a faint variegation of a deeper pink. A really fancy carnation with unusual freedom of bloom.

Ivory

This appears to be the most promising white carnation to date. It is of easy culture, produces well and is a good keeper.

Laddie

In a class by itself; too well known to need description; the “Carnation King” in size, substance and stem.

Radiolite (BAUR & STEINKAMP)

The winner of the DORNER MEMORIAL MEDAL, January, 1926, and of five other scores of over 90 points in 5 other Club entries and with other associations; it surely is a WINNER!

Early and free; a fine shipper and an excellent keeper; the color is a perfect scarlet, flowers large on stiff stems. A welcome newcomer; a ready rooter, and prompt in re-cropping.

Spectrum

A brilliant, rich scarlet, deep in tone, a color that is a necessity. It is a good grower with strong calyx; of decided promise; free in bloom of high grade.

A house of this variety, in bud and bloom, shows “profit” in every square foot; comes into crop of perfect blooms early, and with short time between crops.

CHRYSANTHEMUMS

The "GLORIOUS FIRE-LIGHT of
the CRISP AUTUMN SEASON"

There is no finer collection in the country than ours; WONDERFUL POCKETTS, from AUSTRALIA; LUXFORD'S Winning Varieties from ENGLAND, as well as all the FINEST AMERICANS from our own enthusiastic hybridizers.

We are pleased to announce that at the National 'Mum Show at Chicago, November, 1928, out of our *14 entries*, we were awarded *Ten Firsts, and Four Seconds*, in a fine competition.

In describing our 'Mums in the following pages "EXHIBITION sorts" are plainly indicated.

NEW VARIETIES

Wonderful "POCKETTS" (Australian), English, and American A Spectacular Group!

ADA B. GOSLING

Golden Bronze, shaded bright crimson; late buds are deeper in color; a very striking variety.

Bud not later than Aug. 20; blooms Nov. 10.

CARRIE BEINECKE

A beautiful variety, type of *Majestic*, a fine grower, color a warm bronze; stem and foliage just right to carry the big handsome bloom. Take bud after Aug. 20; blooms early Nov.

FRIENDLY RIVAL

Raised by our friend, ELMER D. SMITH who says "Dedicated to our esteemed friend, E. G. Hill, of Richmond, Indiana, who needs no introduction to the Florists' Industry. This we consider the finest yellow we have ever produced, considering its size, color, stem and foliage, and its flowering period, which is Thanksgiving and later. It is the brightest yellow of its season that we know of."

WE ARE PROUD OF IT! It is a wonder!

Late bud. Blooms late Nov.

FLORENCE BAHN

A chestnut bronze of medium size but wonderful color; flowers very perfect in form, small, neat foliage quite up to the flower; permits close planting.

Take bud Aug. 25; blooms Nov. 5.

GOVERNOR GREEN

A fine early; a large crimson with reverse of old gold; heavy stem and nice foliage.

For best flowers take bud Aug. 15; blooms Oct. 15.

GOLDEN CELEBRATION (B. & s.)

A descendant of *Timothy Eaton* through its sport *Yellow Eaton*; GOLDEN CELEBRATION is the result. As vigorous as its forbears and a bright golden yellow. Scored 94 points C. S. A. Nov. 17, 1927. A true THANKSGIVING stalwart!

Take bud Sept. 10; blooms Nov. 20.

MRS. JULES LEEDS

Gorgeous in color; blood red, a wonderful novelty; petals, immense; this is surely "something different" and startlingly beautiful. One of the most striking novelties of 1928.

Take bud Aug. 25; blooms Nov. 5; second crown Nov. 10.

MRS. AUGUST KOCH (Exhibition)

Absolutely unique, nothing like it; a rosy-salmon sport of *Vermont* with cream-colored reverse; some petals are tubular, others broad and incurved; the spread is enormous.

Take bud Aug. 1st to 15th; blooms Nov. 5.

MRS. F. E. LEWIS

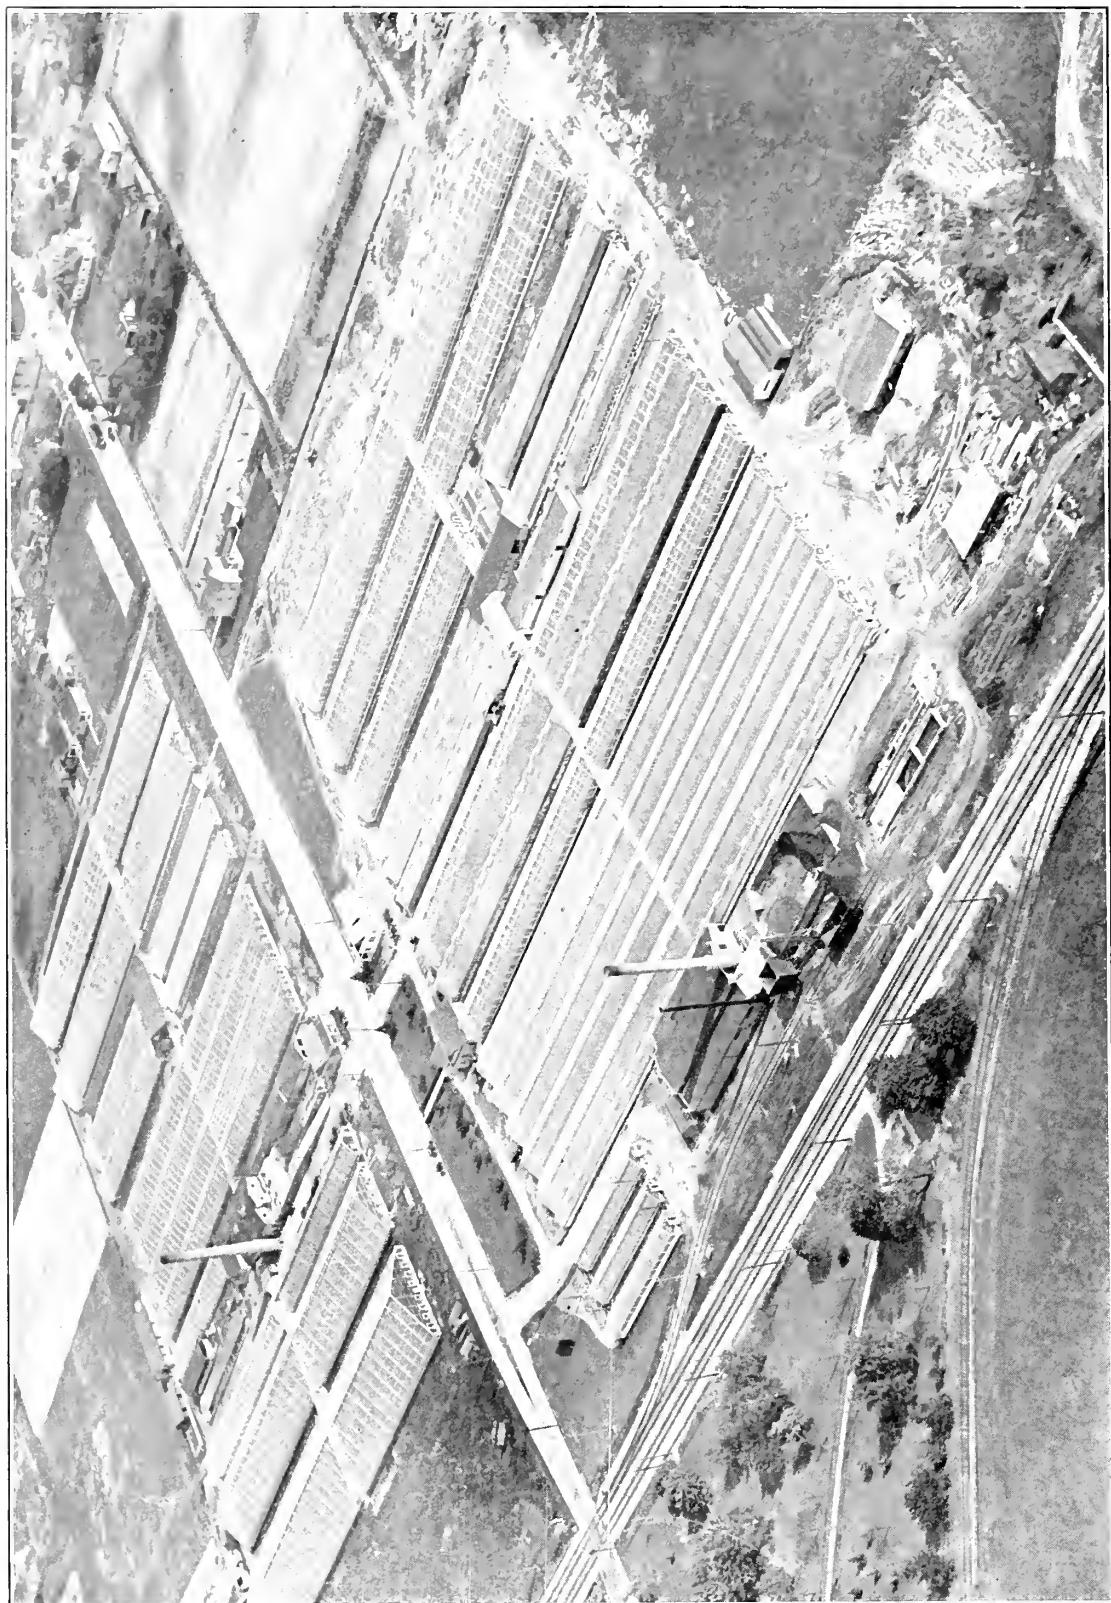

Deep crimson with golden reverse; petals very wide, extremely fine variety, and easy to do. A robust grower. Awarded 93 points. The finest red of its date.

Take bud Sept. 5; blooms Nov. 5.

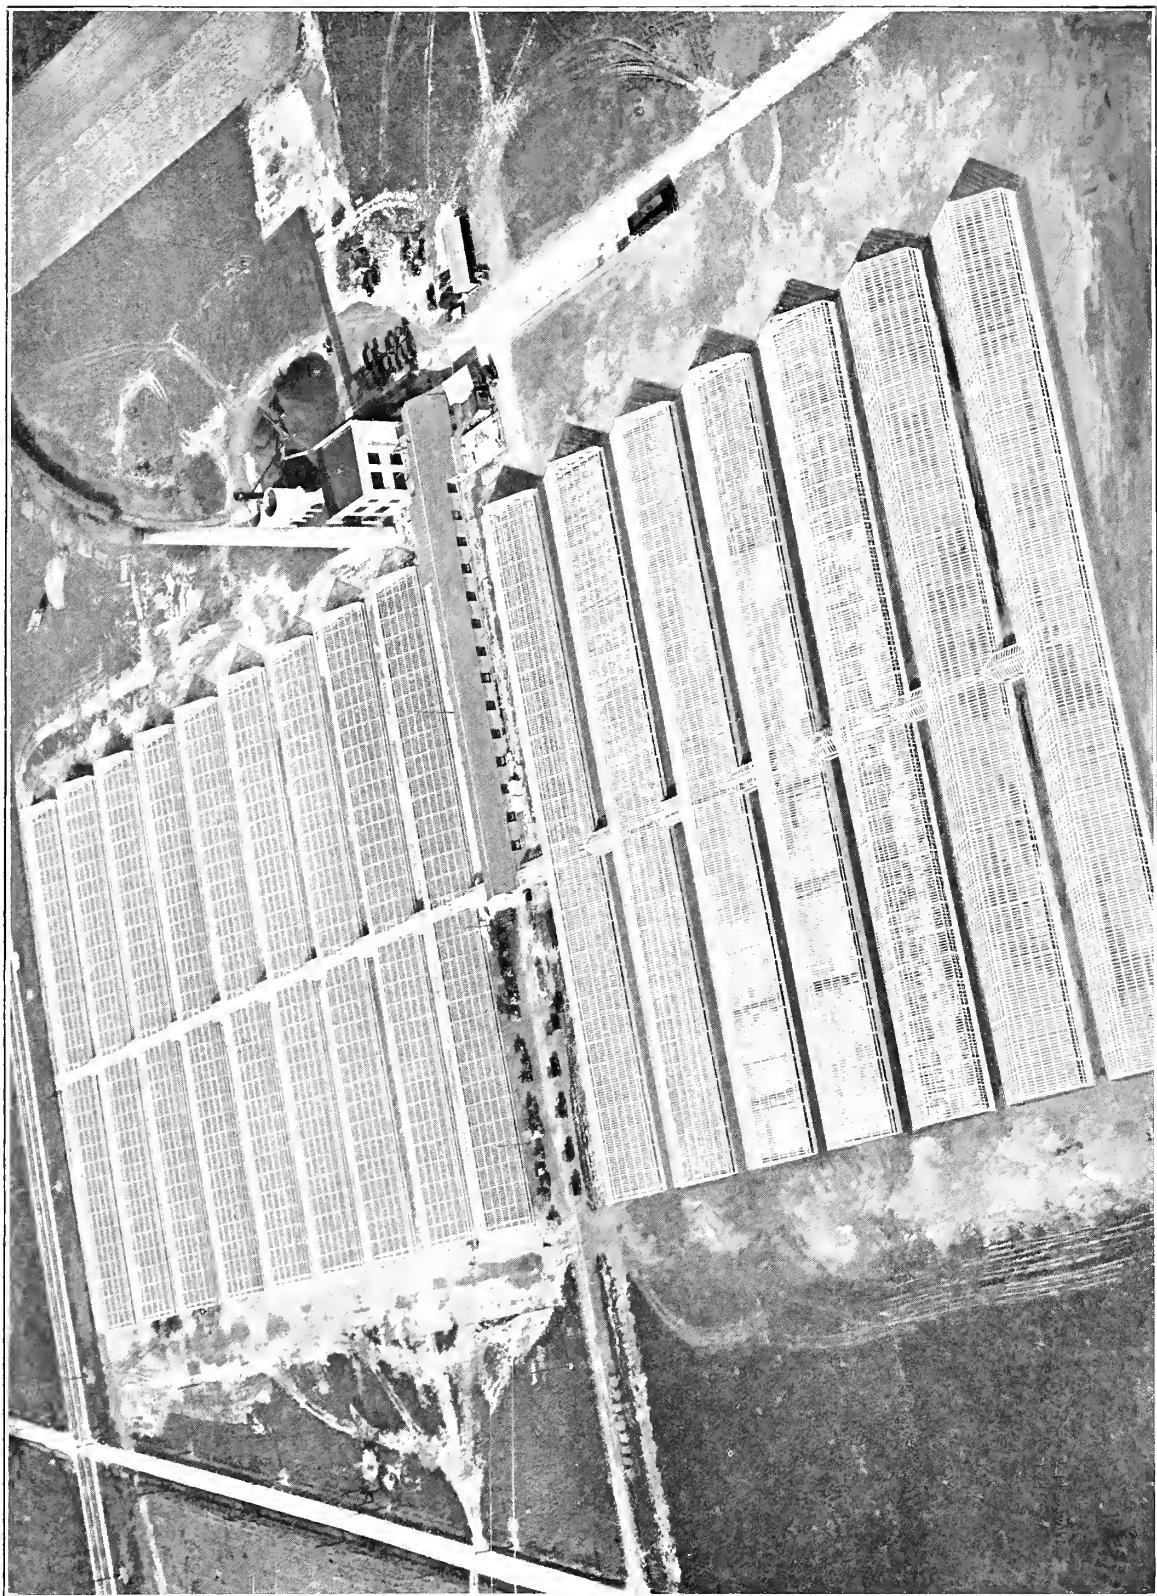

MRS E. KERSHAW (Exhibition)

Nothing finer in its color, a golden bronze with bright lining to the petals, which are of great breadth, the very perfection in form and color of a stunning showy, big mum. 4½ ft.

Take bud Aug. 25; blooms Nov. 1.

Aeroplane view of The E. G. Hill Co. and East Range Jos. H. Hill Co.

Aeroplane View West Range Jos. H. Hill Co.

MISS RITA MITCHELL

Salmon bronze with fawn reverse. Enormous in size; unique for Exhibition. Scored 92 points. Color very striking.

Take bud Aug. 25; blooms Nov. 5.

MARIE DE PETRIS

A very unusual commercial variety of deepest golden yellow; perfect foliage quite up to the flower; perfect blooms from any bud. Stem rigid; nice healthy grower; the individual blooms are 20 to 22 inches in circumference.

Any bud; blooms Nov. 10 to 15.

NADINE (Exhibition)

An exceptionally large golden bronze variety; an easy doer.

Take bud Aug. 1 or later; blooms Nov. 5.

GOLDEN MAJESTIC (Exhibition)

A true golden sport from Majestic; a gorgeously brilliant golden yellow. Immense size.

Take bud Aug. 15 or Sept. 15; blooms late Nov.

THE BRUCE

Scarlet and bronze in fine combination; very showy. An easy doer.

Take bud Aug. 5; blooms Nov. 5.

INDIANOLA (B. & S.)

Another *early commercial*; a large flowered variety of perfect form, very substantial, and a wonderfully beautiful combination of old gold and bronze; handsome foliage. Scored 92.

Take bud Aug. 25; blooms Oct. 8.

Mrs. R. M. Calkins

JOHN R. BOOTH (Exhibition)

A pure golden sport from Nag-ir-roc, with lower petals falling downward in slender curls. A sure prize winner, an astonishing bloom—the earliest "Big One."

Take bud after Aug. 15; blooms Nov. 1.

THETTA QUAY FRANKS (Exhibition)

Clear soft pink, with silver reverse; an immense arrangement of petals, reflexing and curling; habit and stem are perfect to show this big bloom at its best.

Take bud Aug. 25; 2nd crown; blooms Nov. 5.

THOMAS W. POCKETT (Exhibition)

The name *Pockett* assures the quality, and this is extra select, furthermore it was considered worthy to bear the originator's own name. A lovely clear pink with tips of petals incurved; the growth, foliage and stem are the best type of "*Pocketts*"; of enormous size.

Take bud late August; blooms Nov. 5.

GRACE STURGIS (Exhibition)

An enormous flower of very distinct color, a lovely shade of bright rosy plum with silver reverse; of open incurving form;—a great grower; don't overfeed.

Take bud Aug. 25; blooms Nov. 5.

PRIDE OF RICHMOND

A pure *bright pink* of broad incurving form; the color has no touch of violet, and is the tone so much admired; stem stiff, and slender and holds the flower erect, foliage dainty and firm; a very large, nicely filled bloom, smooth and perfect.

Take bud Sept. 30; blooms Nov. 5.

GARNET KING

A perfect reflexed, smooth and velvety; shows no reverse; a beautiful tone of garnet; very choice for Thanksgiving.

Take bud Sept. 20; blooms Nov. 25.

JOHN S. BUSH (Exhibition)

A seedling from *Louisa Pockett*, which it much resembles, having all the good traits of the Family in size and make up; nice foliage, not too large; easy to grow.

Pure white from early buds; soft lavender from later buds.

WOOLF'S PINK

This is an unusually valuable commercial; will pay to plant in quantity; it is perfect in form and clearness of color and unusually welcome about Oct. 10.

Plant May 12; take bud Aug. 20; matures Oct. 10.

You will note that again this year we have added a large number of the extraordinarily fine novelties of the past two years, they are record breakers.

Therefore, we are again offering our customers a collection of

A novelty of 1927. A large glistening white variety, of extra value as it is ready to cut first week in October; straight stem and good foliage.	Aug. 20	Oct. 7	A fine, very early white commercial. Form, foliage, stem, color make it a very valuable second early; easy to do; a splendid grower, a good propagator; the round incurved form makes it a perfect shipper. Very unusual in effect, like unpolished marble	Aug. 25	Nov 1
RICHMOND					
A fine type of commercial; silk-like finish. Bright golden yellow. A very easy doer.	Aug. 25	Nov. 1	SUN GLOW		
ROSANDA (Exhibition)					
Color, old rose; outer petals reflexing, center incurving; a fine large sort, of very easiest culture	Sept. 10	Nov. 1	A brilliant yellow of <i>Bonnaffon</i> type but larger; very smooth incurved. Absolutely unsurpassed as a commercial, and one of the handsomest. Badly needed for this date	Aug. 15	Oct. 20
ROSE DELIGHT					
Deep rose pink on opening, changing to a beautiful lighter			TEKONSHA		
			Grand large flowering bronze for Thanksgiving—long stiff stems, and foliage fine. Easy to do. (This variety and <i>Waite</i> are indispensable for the color they give to the cut 'mums of late November where 90 per cent.) runs to yellow and white)	Sept. 10	Late Nov.
			THANKSGIVING PINK		
			Fine for the Thanksgiving trade, a welcome color among the heavy percentage of white and yellows. Do not bench before June 15, and take terminal bud.
